M R Sharier Kabir

Full-Stack Developer · CSE Student

Dhaka, Bangladesh · sharier48@gmail.com · +880 1722-550023 · github.com/mrsharierkabir · linkedin.com/in/m-r-sharier-kabir

SUMMARY

Computer Science & Engineering student at AIUB and full-stack developer who designs, builds and ships web and mobile products end-to-end — from the database schema to deployment. Shipped a live e-commerce store for a client, a WhatsApp-style messaging app and several Supabase-backed tools. Looking for an internship or junior full-stack role.

SKILLS

Frontend: React, Next.js, JavaScript, TypeScript, HTML & CSS, Tailwind CSS, GSAP
Backend & data: Supabase (Auth, Postgres, Storage, RLS), PostgreSQL / SQL, data modelling, Node.js, REST APIs, Firebase
Mobile: Flutter, Dart
Python: Web scraping, data visualisation, Tkinter desktop apps, Pandas
Tools: Git & GitHub, WordPress, Figma, Vercel

PROJECTS

Shohoz Bazar — E-commerce (client project)

shohazbazar.com

- Designed, built and launched a live online store for a Bangladeshi retail client as the sole developer.
- Product catalogue, search and filters, cart and checkout, order management; mobile-first UI. React, Tailwind CSS.

Dak — Real-time messaging app

Flutter

- WhatsApp-style app with authentication, one-to-one real-time chat, delivery/read states and online presence.

M R Mart — E-commerce platform

React · Supabase

- Storefront, cart and checkout with an admin side for products, stock and orders, built on a relational data model.

AAKAAR — Fashion storefront

React

- Design-led, image-first store with collections, product variants and a minimal premium interface.

Accio & CoinCount — Personal tools

React · Supabase

- Accio: expiry tracker with live countdowns, photo storage and multi-device auth. CoinCount: multi-account personal finance tracker.

Gesture Puzzle — Computer vision game

React · MediaPipe

- Sliding puzzle controlled by hand gestures in the browser; ref-driven render loop holds 60fps.

EXPERIENCE

Freelance Full-Stack Developer — Self-employed, remote

2023 — Present

- Delivered Shohoz Bazar end-to-end for a retail client in Bangladesh.
- Built Python desktop software (inventory and gym management) and data-visualisation work, and WordPress sites for restaurants and an online store, for clients in Australia.

EDUCATION

BSc in Computer Science & Engineering — American International University-Bangladesh

2022 — Present

CGPA 3.00 / 4.00 · Coursework: data structures, algorithms, database systems (data modelling & SQL), software engineering, web technologies.
